

SMS Price List

Effective from the 01 of September 2025 until its cancellation

The Operator provides the possibility to send SMS text messages. If a text is longer than technical limits of the SMS standard, it shall be divided into separate messages sections and then sent out:

- 0-160 characters = 1 message,
- 161-306 characters = 2 messages,
- 307-459 characters = 3 messages.

Inserting one or more Polish diacritics as well as other non GSM protocol standard characters (e.g.: ę, ó, ł, ś, ą, ż, ź, ć, ń, Ů, Ù, Ä, Æ) will automatically shorten the maximum length of the SMS message:

- 0-70 characters = 1 message,
- 71-134 characters = 2 messages,
- 135-201 characters = 3 messages).

Messages with 'branding' have an option of controlling the 11-symbol sender field which allows for specifying the sender name. 'Priority' messages are messages with a guarantee to be sent within 3 minutes of being triggered. SMS messages are added up daily and presented as a sum of costs of messages sent out on a given day. The costs of sending sms messages also apply to those sent by the panel to its users, in particular in case of password recovery.

Text messages are a paid service for all messages sent via the Operator's service.
