In such event the Client should contact the Third Party who provides integrated services for technical support.
 - j. The Operator has the right to refuse to provide technical support for any functionality of the Service which is marked as 'end of life', if such notice was present in the Service function for longer than 30 days.

Authorization is withdrawn by the removal of an account from the Administration Panel.
21. The Client has the right to order Additional tasks to be performed by the Operator using the Administration Panel. The following rules shall apply during valuation, before execution of an order:
 - a. The price of a task depends on the number of hours necessary for its execution and is the multiplication of time and unit price listed in the Price list.
 - b. If the Client changes the requirements many times, the Operator may increase the time necessary for execution of the task by a quantity adequate to the changes that were made.
 - c. If the Client does not maintain correspondence with the Operator in relation to matters important for execution of the task for more than 30 days, if the task is paid for on the basis of work-hours, the Operator has the right to close the task and charge an amount in proportion to time actually spent on the task. If the Client wants to execute the task again, the task will be executed on general terms. If the task is paid for as a complete task, the Operator has the right to regard the task as completed.
 - d. The agreed scope of work influences time required to execute the order. If the Client modifies the scope of work, the Operator has the right to change the value of the fee and the deadline for completion of the task, or not to execute the task. If the Client refuses to accept the changed price and deadline, the Operator shall complete the order on the basis of the original scope and schedule.

 - c. If execution of the task requires, in a justified way, a cost that is higher than the initially accepted cost, the Client shall accept the new, higher cost of execution. If the Client rejects the cost, the task's execution shall be suspended and only the fee which had been initially accepted shall be charged. A task with execution time that was impossible to estimate at the beginning because of untypical scope of work or unforeseen technical problems which appeared during execution of the task shall be regarded as a task with a justified higher cost. The Operator does not regard visible

- or hidden defects which result from incorrect execution of the task as a justified higher cost.
- d. When evaluating the scope of work, the Operator provides time and cost estimation in good faith, considering known and foreseeable circumstances. The Operator is not responsible for an extension of time of execution of a task and simultaneous increase of its cost, if the original scope of work was difficult to estimate because of very high complexity, innovativeness and uniqueness of the task. In such situation, the Operator may reduce the scope of the task in order to fit in the planned budget, e.g. by omitting less important but expensive details. If completing the task in its reduced form is not possible and the Client does not agree for payment of an additional cost, the Operator may resign from execution of the work and return the advanced payment received for the task to the Balance of the Client.

Enabling ES allows the AP to view the Client's balance (without the balance history) and charge it until the service is disabled by the Operator.
 - b. Payments for ES are taken directly from the Balance. Clients allow for debiting of the Balance by an Affiliate Partner during the period from the issuance of the permission until its revocation.

- c. In order to make operations on the Balance possible, Clients agree for ES to debit their Balance and allows ES to inspect their Balance status without the right to access the Balance history.
 - d. The scope of work is determined by ES and the Client is obliged to get acquainted with its description before the order.
 - e. The Operator provides communication with ES via Tickets. The Operator guarantees support in the process of arrangements with ES only in relation to issues submitted via Tickets.
 - f. The Client is not obliged to make any other payments for use of ES outside of the Balance.
 - g. Costs of use of ES are visible in the Balance and on the invoice from the Operator.

30. If the Client inquired about removal of an error, causing incorrect performance of the Key functions of the Service, after the issue is resolved, the Operator may charge the Client in accordance with §8 item 31 if the error was caused by the Client. The charge is calculated as per the Additional task terms.
31. A phone call reporting a critical error must be made to the telephone number indicated on the Operator's Website as an appropriate for this type of matter. After successfully notifying the Operator, the exact time of the phone call shall be deemed as the moment of reporting the issue in any potential complain proceeding. During the working hours of the Service Helpline, a written error notification shall be made via the ticketing system. Outside working hours, any written report should be sent to an e-mail address indicated on the Operator's Website as an appropriate for this type of matter. In any case, the title of a written notification or a phone call shall include a clear information about the nature of the issue.
32. Using individually designed logos or website Templates outside of the Service requires a prior purchase of an additional license, which is detailed in the Price list. Other custom content can be used without purchasing any license, as they are licensed as part of the Service Fee.
