Appendixes

1. **Appendix 1 – IdoPay price list**
2. **Appendix 2 – SMS price list**

Appendix 1 – Online payments via IdoPay Price List

The operator according to this Price List shall mean IAI S.A. or IdoPayments sp. z o. o. - depending on which entity provides the payment service for the Customer who is also a Merchant. Operator being IAI S.A. provides IdoPay electronic payments, among others through BLIK and so-called Pay-by-links (immediate, automatic bank payment) and card payments. The operator being IdoPayments sp. z o. o. organizes the possibility of handling IdoPay electronic payments, among others via BLIK and the so-called Pay-by-links (instant, automatic bank payments). Operator transfers the full amount of payments to the bank account of the client, sending information about the payment to the payment service system for the order. The commission fees are the net amount of the balance.

1. **Commission for handling payments with automatically booked payment (Pay-By-Link, BLIK, PayPo, card payments)– 1.2%** (the rate may be negotiated).
 1. Commission for card payments under the IF++ model.
 1. card payment service fee is the sum of the following components: interchange fee, Visa/Mastercard fee, Operator fee.
 2. The interchange fee, as a component of the IF++ settlement, is a fee paid to the payment card issuer (bank). These fees vary from card to card and range from 0.20% to 2.50% of the transaction value

 4. Operators fee - 0.7% (rate may be negotiated).
 2. **Fee for a recognized chargeback complaint – £25/25€/25\$**

The fee applies only to card payments for which a chargeback type complaint will eventually be recognized. The fee is paid to the card acquirer and is calculated in the same amount as the Operator is obliged to pay. The amount of the fee is independent of the amount of the transaction being complaint.

Appendix 2 – SMS Price List

The Operator provides the possibility to send SMS text messages. If a text is longer than technical limits of SMS standard, it shall be divided and then sent out after splitting them into 2 or 3 messages (0-160 characters = 1 message, 161-306 characters = 2 messages, 307-459 characters = 3 messages). Inserting one or more Polish diacritic characters as well as other non GSM protocol standard characters (e.g.: ę, ó, ł, ś, ą, ż, ź, ć, ń, Ü, Ù, Ä, Æ) automatically shortens the maximum length of an SMS message (0-70 characters = 1 message, 71-134 characters = 2 messages, 135-201 characters = 3 messages)

Messages with 'branding' have an option to edit the 11-symbol sender field allowing to provide the name of the Client as the sender and, thus, avoid any misunderstandings as to the identity of the sender. 'Priority' messages are messages with a guarantee that the Operator will send the message within 3 minutes. SMS are added up daily and presented as a sum of costs of messages sent out on a given day. The costs of sending SMS messages also apply to those sent by the panel to its users, in particular in the event of password recovery.
